REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record such as Kinoshita (US 2002/0172149 A1) teach a mesh type protected network, wherein protection path segments are established dynamically prior to transmission of a communication. In contrast, applicant's invention provides pre-provisioned working path segments along a plurality of primary nodes, pre-provisioned protection path segments along a plurality of backup nodes and pre-provisioned bidirectional shunt segments interconnecting a backup node with a primary node which are established at the time the network is formed (see specification, page 3, lines 8-14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Marcelo whose telephone number is 571-272-3125. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
